

## Steps For Sending Birthday Message

- **Day 1** Send a birthday song/card, to those who have a birthday.  
**If they respond**, reply by saying something like...  
*“I hope you enjoy your very special day.”*  
Don't appear to be over eager or aggressive. Follow their lead. If they are talkative, reciprocate. Reply with comments that cause them to talk and reveal.
- **Day 2** Visit their wall to like, love and comment on their wall to keep your name and face before them and look around for information/needs.
- **Day 3** send an invitation. Use something you discovered on their wall to create your invite or create a generic invite that will work for anyone.

### MY Personal Invitation

**Because I talk about the autoimmune diseases the doctors diagnosed me with during my overview, and I share what products I've used to improve my life over the years, this is how I choose to invite people.**

Hello \_\_\_\_\_!!! You may be wondering why I took the time to send you a personal birthday song. It's very simple, to bless you and to CELEBRATE your life. Why? Because in 2010, I almost lost mine. That experience changed my life forever! Tonight at 8:00P.M. eastern I invite you into my world. If you are open, I would love for you to join me in my ZOOM ROOM for about 25 minutes to find out what disease affects 23.5 million people with 80% of them being women and share with you, things you can do to help yourself. Will you listen in? The information may or may not benefit you...but what if it does and you don't hear it? 🙏
